Garret Hildebrandt

Software Engineer

Portfolio: garrethildebrandt.netlify.app
github.com/garrethil
linkedin.com/in/garret-hildebrandt-6887662b1

University of Toronto alumnus and full-stack developer with experience building web applications using the MERN stack and cloud technologies. AWS Certified Cloud Practitioner with a background in jazz performance, combining technical problem-solving with creativity to build effective, maintainable solutions.

Technical Skills

Languages	JavaScript, TypeScript, Python, SQL, HTML, CSS
Frontend & Backend	React, Angular, Node.js, Express, Tailwind CSS, GraphQL, REST APIs
Cloud & DevOps	Docker, Ansible, Azure Pipelines, AWS, CI/CD, Portainer
Data & Platforms	MongoDB, MySQL, Shopify, Git, Playwright
AI Development	Agentic development, IDE agents, LLM evaluation, context scoping, PR workflows, cost optimization

Experience

Software Engineering Intern — **Mar 2025 — Feb 2026**
TV2 Consulting — *Full-time, Remote*

- Developed full-stack features across 6 IPTV services delivered to 4 client companies using Angular, React, GraphQL, and REST APIs.
- Automated Docker deployments across development, staging, and production with Ansible and Azure Pipelines.
- Built Python scripts to automate testing and operational support.
- Improved AI-assisted development by scoping agent context and evaluating LLM performance and cost.
- Provided 24/7 production support during scheduled on-call rotations.

Lead Shopify Developer — **Oct 2025 — Present**
Urban District — *Part-time, Remote*

- Led final-stage development of a Shopify e-commerce platform using Liquid, HTML, CSS, and JavaScript.
- Increased website traffic by 150% through SEO optimization.
- Customized Shopify themes, resolved deployment issues, and translated business requirements into maintainable storefront solutions.

Freelance Web Developer — **Jun 2024 — Sep 2025**
GH Digital Developments — *Remote*

- Designed and deployed full-stack web applications using the MERN stack.
- Built responsive React and Tailwind CSS interfaces from Figma designs.
- Developed and optimized REST and GraphQL APIs in independent and Agile development environments.

Server and Bartender — **Apr 2022 — Feb 2025**
Collective Arts Brewing — *Toronto, ON*

- Delivered high-quality customer service in a fast-paced, high-volume hospitality environment.
- Developed strong communication, collaboration, and problem-solving skills while working with customers and cross-functional teams.

Projects

Wave-Chopper — **Dec 2024 — Jan 2025**
MERN, AWS S3, TypeScript, Tailwind CSS, Vite

- Built a full-stack web application for uploading and processing WAV audio files with custom audio effects.
- Integrated AWS S3 and signed URLs for secure and scalable file storage.
- Improved application performance and maintainability through optimized processing logic and TypeScript.

Education

University of Toronto — **Nov 2023 — May 2024**
Full-Stack Web Development Certificate

University of Toronto — **Sep 2018 — Apr 2023**
Bachelor of Music, Jazz Performance

AWS Certified Cloud Practitioner — **Dec 2024**
Amazon Web Services
